2007 Program

## Impairment Assessment

AMA Victoria is delivering courses to enable medical practitioners to assess impairment for TAC, WorkCover and for the purposes of Part VBA of the Wrongs Act 1958 (personal injury).

The core module and at least one elective must be completed. Electives are chosen on the basis of your specialty and the types of impairment assessment you expect to perform. The core module covers the legal aspects of impairment assessment and the requirements of the different legislation.

Medical practitioners who have previously been accredited in the core module and a specialty can do an update program. Update courses (Stream 2) focus on ensuring legislation knowledge is current and participants are updated in changes to interpretation of the Guides.

## Module Delivery

Each module is delivered by a specialist medical practitioner with current accreditation and experience in impairment assessment within the specialty.

Initial modules (Stream 1) are delivered as lectures, with models, case studies and group discussion, directed at an entry level of understanding of the AMA 4 Guides and relevant legislation. The length of training for Stream 1 modules is between 2 and 4 hours.

Update Modules (Stream 2) are for currently accredited assessors with a more advanced level of knowledge. Training focuses more on group learning activities using discussion on case studies, models and vignettes. Modules for Stream 2 last between 2 and 3 hours.

## PROGRAM

### Stream 1 New Assessors

Date/Start Time	Module
Saturday 20 October (8.30am)	<b>Core Module* (compulsory)</b>
Wednesday 23 May (7.00pm)	<b>Ear, Nose and Throat</b>

#### Timing

Registration will commence 30 minutes prior to advertised start times. Length of individual modules vary therefore program start and finish times will be confirmed upon registration.

\*Core module must be successfully completed prior to an elective module being undertaken.

## Resources

Training content and resources have been developed by reference groups for each specialty aligning the role of the impairment assessor in an Australian clinical context with the requirements of the AMA 4 Guides.

All program participants receive:

- A comprehensive course handbook
- Module pre-reading materials upon registration
- A copy of all course materials
- Post program evaluation and feedback
- A formal case study for completion of the competency process
- Certificate of Competency
- Ongoing update materials

## Assessment

Assessment is on the basis of a series of vignettes discussed with participants. An impairment assessment case study will also be given to participants at the end of each module. A written assessment of the case study's assessed level of impairment is to be completed and returned to AMA Victoria within one month of course attendance.

All participants submitting a case study for assessment will receive feedback from the module trainer in the form of a general case study information sheet.

## Venue

All courses will be held at AMA House, 293 Royal Parade, Parkville Vic 3052.

## CPD/CME Points

Applications for CPD/CME points have been submitted for these programs.
